Sardar Patel University <div align="right">Anand, IN</div>
Master of Computer Applications <div align="right">*April 2024*</div>

The Maharaja Sayajirao University <div align="right">Vadodara, IN</div>
Bachelor of Computer Applications (Hons.) <div align="right">*April 2021*</div>

EXPERIENCE

Full Stack Developer <div align="right">March 2025 – Present</div>
Writeroo <div align="right">*Vadodara, IN*</div>

- Developing responsive and dynamic user interfaces using React with Typescript. Implementing application logic and managing state using Typescript.
- Designing, implementing and maintaining robust and scalable back-end systems using Django with Django Rest Framework (DRF).
- Writing unit and integration tests to ensure code quality and working.

Django Developer <div align="right">July 2024 – February 2024</div>
Writeroo <div align="right">*Vadodara, IN*</div>

- Contributed to the design, development, and deployment of web applications using Django.
- Assisted in building and maintaining RESTful APIs using Django Rest Framework (DRF) for communication between front-end and back-end systems.
- Worked with Django ORM to manage database operations, including migrations, queries, and relationship handling.

Full Stack Developer Intern <div align="right">December, 2023 - April 2024</div>
Trevita Infotech <div align="right">*Vadodara, IN*</div>

- Assisted in building RESTful APIs with Node.js and Express.js, integrated with databases like MongoDB and MySQL for data management.
- Built dynamic and responsive user interfaces using React.js, implementing reusable components and managing state with React Hooks and Context API.
- Integrated front-end with backend services, making asynchronous API calls using Axios and Fetch API, and handling responses to update the UI dynamically.

CERTIFICATIONS

Complete Node Bootcamp : From Basics to Advance <div align="right">Udemy</div>

Docker Basics Unleashed <div align="right">Udemy</div>

TypeScript : Fast Forward <div align="right">Udemy</div>

JavaScript Fundamentals to Advanced: Full Stack Development <div align="right">Udemy</div>

PROJECTS

Jobemirate | *Django, Django Rest Framework, Next.js, Supabase, Supabase Storage*

- A full-stack web application designed for a freelance client to streamline the employee staffing process for businesses and job seekers.

Retropix | *Flask, React*

- Retropix is a web app I build for fun that tranforms your images to an old school 16-bit or 32-bit retro style image.

Markdown to HTML | *Go*

- A fun and interesting Go based CLI tool to convert your markdown file to simple HTML file using the BlackFriday library.

Technical Skills

Languages: Python, JavaScript, TypeScript, Java, Go
Frameworks: Next, Django, Express, Django Rest Framework
Developer Tools: Git, Docker
Libraries: React, Node
Applications: Docker Desktop
